MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: DIA Building at Langley

Your idea for combining the new DIA building with the CIA facilities at Langley is certainly appealing. We have had difficulties in getting this facility through the decision process and new ideas for satisfying this need are welcome. This particular option has further appeal when combined with an alternative for colocating the NITC with the CCF in the Pentagon.

We urge that we take quick action in considering this alternative as part of this review cycle. I would like to make a determination on feasibility within three weeks. Let's both designate an individual to develop this concept further. [redacted] of DIA, will represent DoD. He is the officer who can best express the requirements and scope necessary for this new DIA facility.

I note that you have reacted favorably to a DOD proposal to construct a DIA building and have gone so far as to suggest it might be a good idea to have such a building colocated with us here at Langley. This suggestion could run head-on into the National Capital Planning Commission approved plans and, perhaps more importantly, thwart the Agency in some of its long-range plans for another building to consolidate ourselves in one location. Currently, we are scattered about in the Metropolitan Washington area in about   different locations. I have attached for your information a paper which was recently prepared on this subject.

<b>Remarks:</b> Mike: <p>Re paragraph 4 of the attached memorandum, please prepare a paper for the Director, as we have discussed, pointing out what is involved if we allow DIA to erect a building to house [ ] people. Secondly, and 25X1 behalf, simultaneously task OGC in response to paragraph 4.b.(1). I think a joint paper from both you and OGC will do nicely. Please endeavor to have that paper to me by 19 September.</p> <div style="text-align: right;">25X1</div> <div style="text-align: right;">John F. Blake</div>

4. DIA Building: Secretary Duncan indicated they had a \$77 million excess in MILCON funds in FY 77. They believe there is some legal way to apply this to the proposed DIA building, although they would have to get Congressional authorization. I made two comments:

a. The building should be smaller than that proposed, perhaps ☐

b. The building should be located on the CIA land so that the analysts of the two principal production agencies in the Intelligence Community could be in close and frequent coordination. I expressed my view that this could do more than most anything else to reduce parochialism and promote understanding and cooperation in exchange of information within the community.

(1) Request someone look at the physical and legal aspects of this quickly.

Extract from Memorandum for the Record  
by the Director, dated 8 September 1977,  
Subject: Conversation with Secretary of  
Defense, 7 September 1977.
